

# Tutorial Midtrans

## Register, Login dan Access Keys

### 1. Register

Daftar dahulu jika belum memiliki akun Midtrans di alamat

<https://dashboard.midtrans.com/register>

The screenshot shows the Midtrans registration page. The Midtrans logo is in the top left. The main heading is "Registration". Below it, a note states: "The email & telephone number provided will be used to login to the Midtrans portal, receive reports, validate bank account, and many more." The form contains the following fields:

- BUSINESS NAME**: A text input field with the placeholder "Enter your business name".
- FULL NAME**: A text input field with the placeholder "Enter your full name".
- BUSINESS EMAIL**: A text input field with the placeholder "Enter your email". Below this field, a note says "We will send a verification link to this email".
- BUSINESS PHONE NUMBER**: A text input field with a country code dropdown set to "+62" and a placeholder "813xxxxxxx".
- BUSINESS LEGALITY**: Two radio button options:
  - ☐ My business has form of legal entity such as PT, CV, Yayasan, Koperasi, PMA or PP.
  - ☐ I am online/offline business owner, and my business has no business entity.

In the bottom right corner, there is a chat window for "Amy - your Midtrans' virtual assistant" with the text "Select a language to continue" and a "Terms" link.

## 2. Login

Setelah register lalu Login di alamat <https://dashboard.midtrans.com/login>

Isikan dengan Email dan Password milik Anda.

### 3. Sandbox Mode

Sandbox mode adalah Mode percobaan yang memberikan kebebasan kepada anda untuk menjelajahi dan bereksperimen dalam lingkungan percobaan (bukan asli)

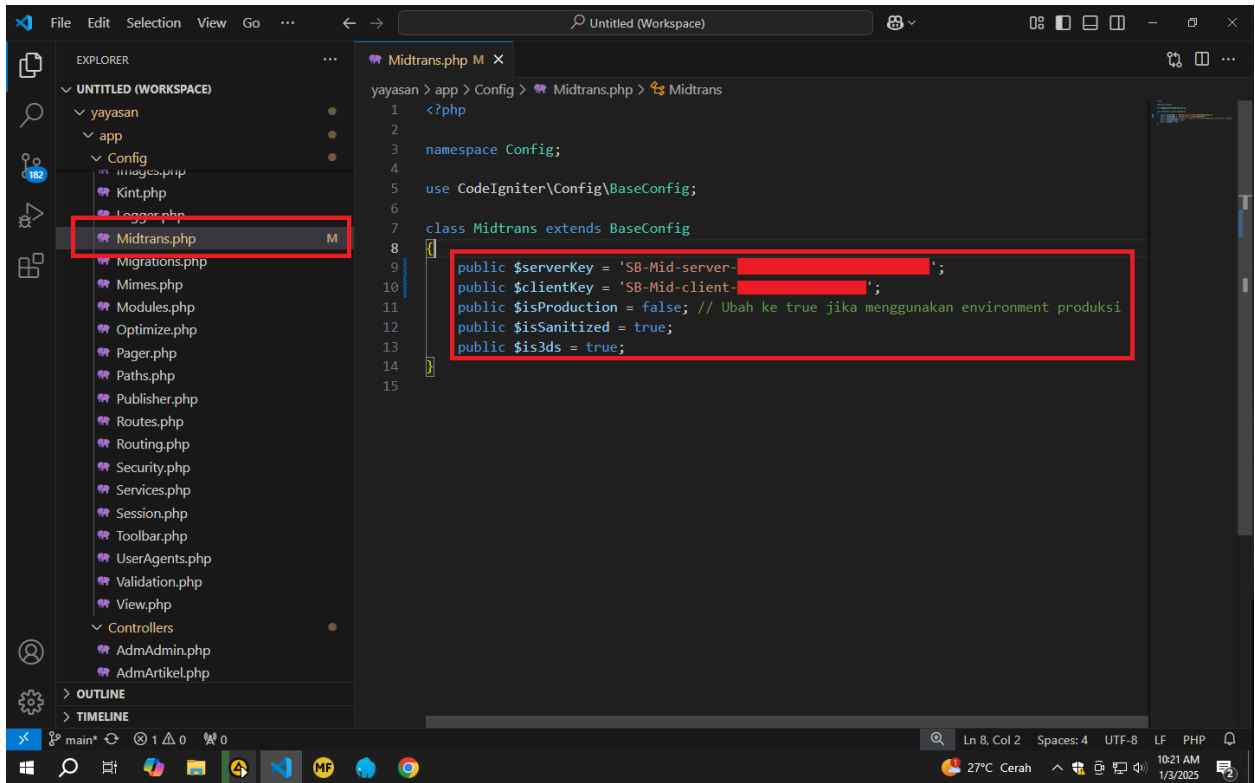

Melihat access keys ada pada menu Settings > Access Keys

Akan terlihat Client Key dan Server Key

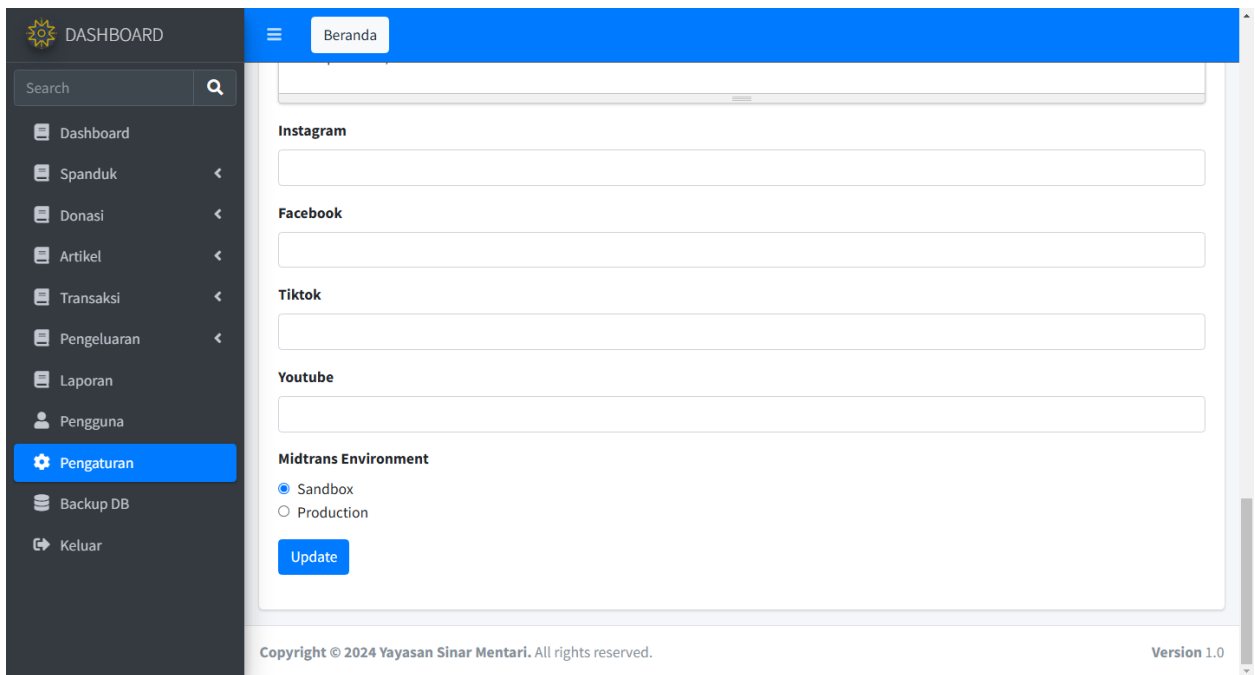

Lalu Isikan pada kolom yang tersedia sesuai dengan serverKey dan clientKey diatas pada Source Code Aplikasi di file yayasan > app > Config > Midtrans.php

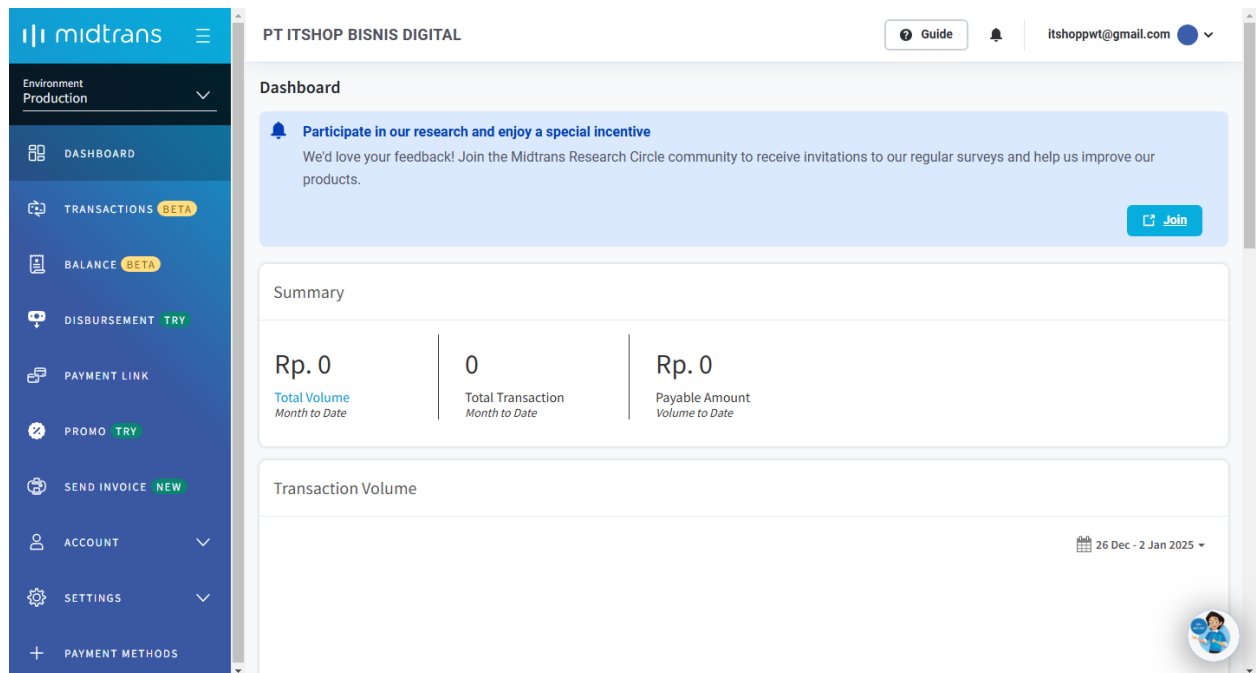

```
1 <?php
2
3 namespace Config;
4
5 use CodeIgniter\Config\BaseConfig;
6
7 class Midtrans extends BaseConfig
8 {
9     public $serverKey = 'SB-Mid-server-';
10    public $clientKey = 'SB-Mid-client-';
11    public $isProduction = false; // Ubah ke true jika menggunakan environment produksi
12    public $isSanitized = true;
13    public $is3ds = true;
14 }
15
```

Ubah mode Pada Dashboard Web pada menu Pengaturan menjadi **Sandbox**

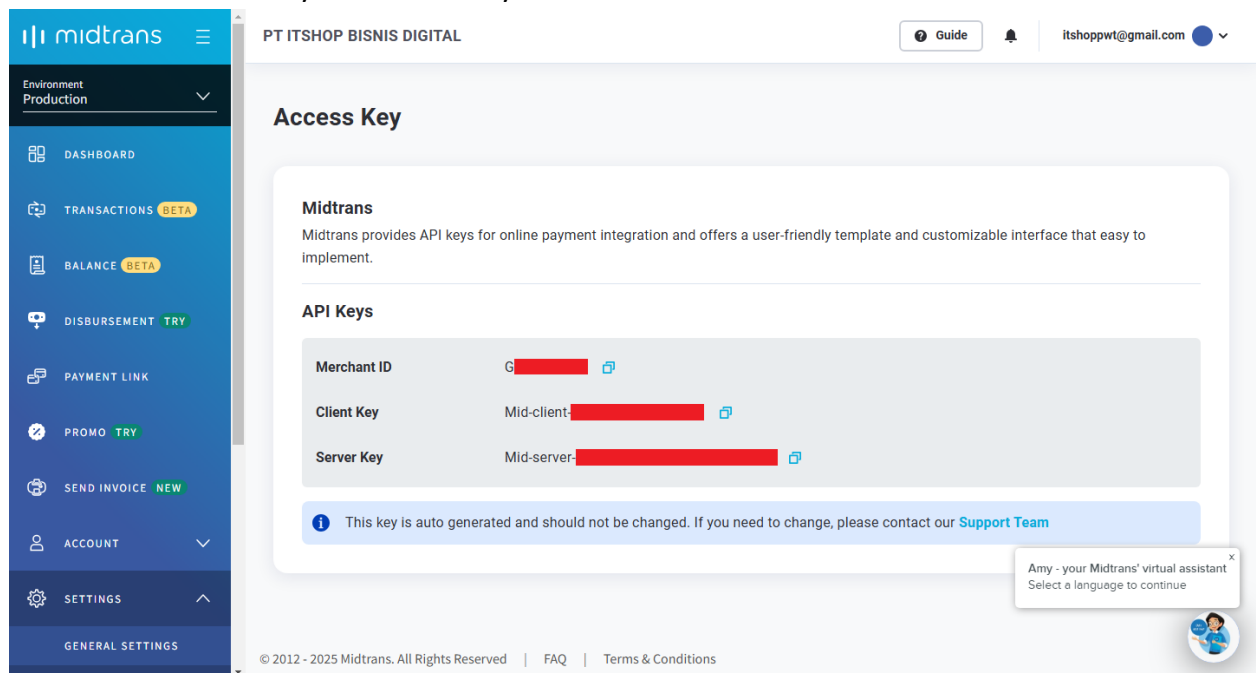

## 4. Production Mode

Production mode adalah Mode produksi yang digunakan pada aplikasi dimana akan ada transaksi dengan uang asli (real payment) dan anda sudah siap menjalankan transaksi

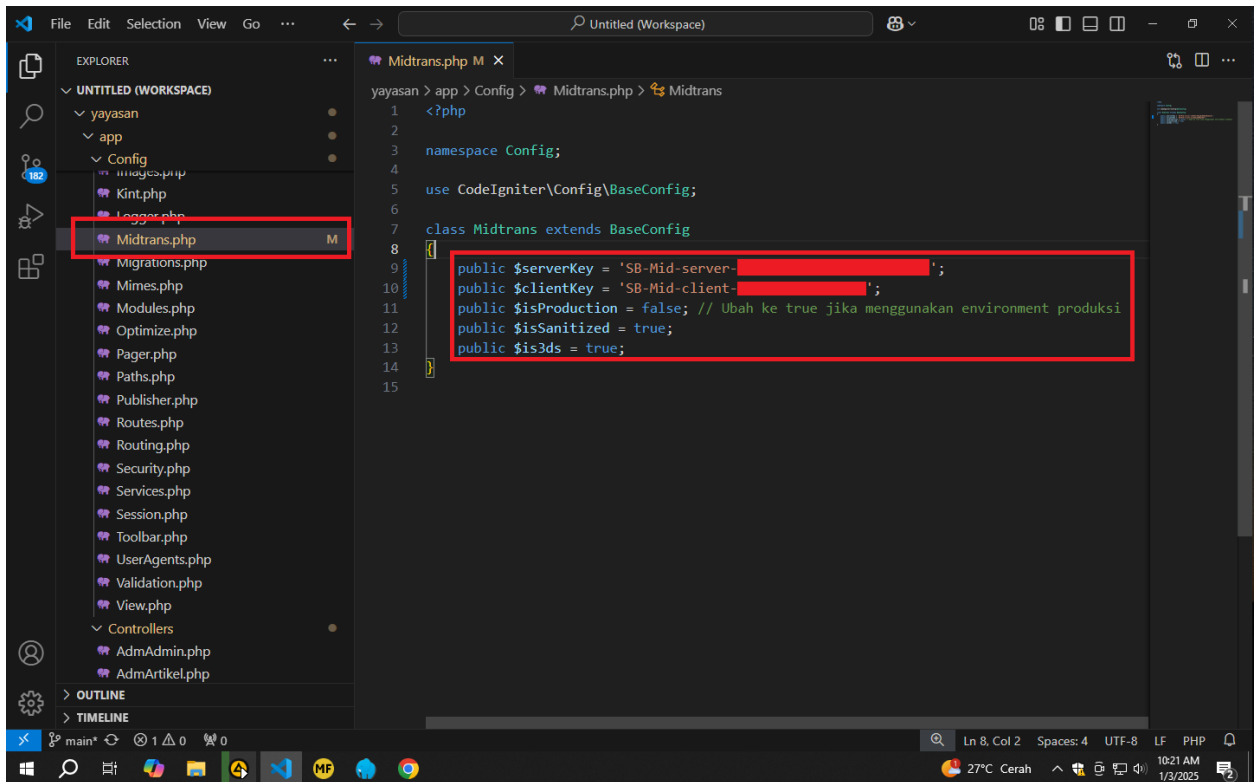

Melihat access keys ada pada menu Settings > Access Keys

Akan terlihat Client Key dan Server Key

Lalu Isikan pada kolom yang tersedia sesuai dengan serverKey dan clientKey dan isProduction menjadi = true diatas pada Source Code Aplikasi di file yayaan > app > Config > Midtrans.php

```
1 <?php
2
3 namespace Config;
4
5 use CodeIgniter\Config\BaseConfig;
6
7 class Midtrans extends BaseConfig
8 {
9     public $serverKey = 'SB-Mid-server-';
10    public $clientKey = 'SB-Mid-client-';
11    public $isProduction = false; // Ubah ke true jika menggunakan environment produksi
12    public $isSanitized = true;
13    public $is3ds = true;
14 }
15
```

Ubah mode Pada Dashboard Web pada menu Pengaturan menjadi **Production**
